October 8th**

## Contact:

shikha.singh@macd.org  
517-395-2089

**Refreshments will be  
provided!**

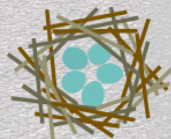

Invasive species can reduce biodiversity, damage infrastructure, and hinder management activities. Learn more about what invasive species are, identify commonly found invasive species, and some that are nearby. We will also cover basic management methods, equipment decontamination, and environmental considerations when using pesticides.

Speaker:

**Dr. Shikha Singh**

*JLW Cisma Invasive Species Coordinator*

This talk is geared towards county and municipal staff, volunteers, and partners interested in learning more about the above topics. *This event is free, and registration is required. Please email or phone Shikha Singh at the contact information to the left. Attendees will be eligible for two seminar pesticide credits in category 6 or common core. Registrants should include interest in receiving credits in their RSVP email.*
