June 2026 - Community Forester Report - Matthew DeJonge

Overview

This month I submitted Q1-3 accomplishment report for the Forest to MI Faucet program while mapping out seasonal staff goals for upcoming fall outreach campaigns. Additionally, the district successfully hosted 150 attendees at the Native Plant Expo speaker stage and advanced planning for the next Preserved Farm Tour in October.

Programming

- Forest to MI Faucet
 - Traveled to Livingston CD Nature Center, discussed Region 10 meeting with Clark Humrich & Shannon Brines. Spoke with Jason Darling to confirm his ability to participate in the event.
 - Met with Seasonal staff to discuss work for Forest to MI Faucet into the end of the Fiscal year. My plan is to have Terzah help with a Fall tree sale discount campaign, public outreach for Saline Parks forest management plan, and possibly the Region 10 meeting with Livingston CD and Jason Darling the forester.
 - Prepared achievement report for grant reporting. Mike Smalligan requested WCCD submit a report for our work up until this point. The last report submitted was for second half of FY2025.
- Held Speaker stage at the Native Plant expo, we had 150 attendees. Tony Reznicek was a big success, and a great addition to the speaker stage. Kid's corner was successful with two new additions alongside Matthaei Botanical Gardens.
- WC Collective planning is underway for another farm tour. The group is targeting 10/15 as a date, and the location will be the Irwin Farm and Doll Farm on the West side of the county. This will be the second Preserved Farm Tour, with a goal to promote the millage work that happens in land preservation & conservation.
- Submitted some payment requests for work done by Liv's Native Nursery and Halcyon Earht and Sky on their School and Community Habitat Grant projects.

General WCCD

In June I received twelve requests for technical assistance, eight of which were forestry or individual tree related. Tree health problems are emerging this time of year, oak wilt and other fungal diseases. There was one office visit from a family who is doing some native prairie/food forest establishment. I helped them determine a plan of action for non-chemical site prep for native seed establishment; Katy Beaven helped in this process & may follow up with MCSFP.

Priorities for July

- Budgeting, planning programming for FY27 - putting most work into developing SCHG maintenance funds, and community education series to align with resource distributions
- Planning for events in August and September, working with Seasonal Staff.
- Discussing a grant amendment with DNR for remaining F2MiF funds, the deliverables have been met
